BREAKFAST ITEM - DCI/SECSTATE - 11 MAY 1982

SUBJECT: American Political Foundation

This subject was to have been discussed at a meeting called by the Secretary of State in which top ranking representatives would come from Defense, NSC, CIA, AID, and ICA. The meeting did not take place as scheduled because of the Falkland Island crisis.

This initiative is an very important one and we believe should be endorsed strongly. It is a version of a project that you have been pushing for a considerable period of time. We are not absolutely sure that Secretary Haig is on board. We feel that it would be very important for you to endorse this project to him at your breakfast meeting both to underscore its value as well as to ensure that the momentum for this proposal be continued. The key, of couse, is to use the President's trip to Europe as a stimulation to kick into motion certain things that we know need to be done in the overall area
